Orienteering
Championships
2009**

**Incorporating the
Otago Championships**

Results

From Owen Cambridge,
President, Dunedin Orienteering Club

The first thing that needs to be said is a huge thank you to all the helpers from our club and others who made the event possible. Many of these were not in visible positions during the events.

The spirit was summed up on the last day; when most others had gone home, the ageless Bunny Rathbone was out collecting controls in absolutely atrocious weather.

I have put a thank you on the wiki... The club wiki at <http://dunedinorienteering.wikispaces.com/> is open for public comment and any orienteering based discussion that our members want. All anyone has to do to see it and use it is to create a simple logon, password and give a valid email address. They are then able to read and contribute.

We're especially keen to get feedback on the SI Champs and things to improve on for the Nationals. This is for competitors from other clubs as well. Outsiders probably have more valid comments to make as they should have a more open mind to it all.

As long as this space is used sensibly, we will keep it open to the general public.

Gabriel's Gully

From the planner

Gabriel's Gully is an interesting area rich in history. Also for spectators it's a fascinating place to watch participants navigating and looking out for controls. As for planning it's not an easy map, very steep, very, very green and lots of nasty bushes like gorse, hawthorn and blackberries. Sorry for all the scratches; I hope they healed alright. It's also a place you need to be constantly with the terrain and map. Good area for easy courses and relays maybe.

I hope you still had a good time enjoying the lovely area and the sunshine. Thanks to Ake my controller who kept me on task and Carsten for the mapping and all his help on the day. To Brian, the middleman who kept me informed about the mapping etc. For the organising team a big thumbs up. You did a great job. Thanks also for all the helpers who brought in controls.

Cheers and happy orienteering, *Annie*

Cuttance Block

Controller's Report

The extension to the original Cuttance Block map was well overdue by the club and was completed by Svend in the early winter of 2009. It was great to have Svend map the new area after he completed the original back in 2003. The map got to us early and although steep, it had some interesting new features and areas; the best I believe was in the dark macrocarpa on the north western edge of the map. Jim definitely used this area to great effect in his planning as most courses finished with a flurry of controls in this area. Trying to manage the climb at Cuttance is a challenge and the Cuttance map has a reputation as a steep map, however apart from Course 1 and 2, we managed to keep the climb pretty respectable percentage wise. Only Course 1 and 2 was above 5% climb, and would be less with some inventive/brave route choices. Jim careful planning kept Courses 5 and 6 below 3.5% as well. In terms of length, we both agreed that we wanted a true Long Distance test in this Championship especially for the elite courses. The winning times of 1hr37 and 1hr 18 reflected our intentions I think. The orange courses were slightly long, and some struggled with the difficulty; this after we had shortened and simplified both of them.

Jim did a great job with the planning. His courses were well thought out, and the route choice and navigation challenged everyone who participated. I remember being very excited and impressed when looking through his first draft maps. He spent many hours in the forest checking and rechecking sites, making small map corrections and placing and collecting controls. We worked well as a team.

A big thanks to those of you who participated, especially cool to have the international flavour. Thanks also to the landowners and helpers on the day, (I know Jim has mentioned the names in his

report.) Special thanks to Pat, who also put in a huge effort in organisation.

Hope to see you all at Nationals in April in Central Otago!

Brian

Planners Report

Well, we all made it home again, even if there was the odd rogaine-like finishing time. That's our first use of a much-enlarged Cuttance Block map (thanks Sven); it's an interesting area, and we're grateful to the Adam family, Wenita Forest Products and Fulton Hogan for letting us tear around their land. I greatly appreciate Brian Buschl's helpful advice and assistance as Controller, and was happy enough with the final courses; the finishing times were generally within 10 minutes of target, although Courses 3, 8 and perhaps 7 seemed to be overcooked. Thanks to Bunny Rathbone, Bill Anderson, Ake Fagereng and the O'Leary family for collecting controls, and those who helped on the organisational side.

I hope the travel home was more straight forward than the forest.

Jim
